

## Lorraine Payne

Design & Advertising

Please bear with me while I fuss over the new web site in construction.

In the meantime, here is a little information about me and my work.

For some examples, please call or email, and I'll send you a portfolio.

Look forward to hearing from you soon.

A Designer and Art Director of 21 years experience – both in agency and freelance – my approach provides clients with attention to detail beyond the brief, and a can-do attitude based on knowledge of media.

From logo and stationery to poster campaign; from Childrens book to corporate brochure, I'll bring experience which is broad as well as deep. Enthusiasm and professionalism are given in equal measure, whether you're a big brand, a growing business or a sole trader.

Applications: QuarkXpress, InDesign, Adobe Illustrator CS2, Photoshop CS2.
